

What went well?

We finished all our tasks, no member had to deal with other issues. Everyone got to figure out how to deal with their own deadline for the first time instead of dealing with predetermined one.

What went bad?

There was a little confusion regarding end date. It was solved, however, some team members thought the sprint ended on another day than it did.

What We can improve on.

For our next sprint, we will use calendars, whether on phone or computer, in order to make sure no one is unsure of the end date.
